

*My child has Symptoms of covid 19:*

*Please call our office and we can help you determine if you need a telemed visit and parking lot swab or an inperson visit. Please let us know if you or your child has been exposed to covid 19 or has traveled out of state.*

*If the test is positive your child will isolate as much as possible for 10 days.*

*If your child tests negative, we will email you the results. Your child can return to school and get out of quarantine once his/her symptoms have basically resolved.*

*We will email you a clearance note when the test is negative but it is up to you to know when your child's symptoms have resolved and when exactly they can return to school.*

*If you choose not to test your child with symptoms, the child must stay home for the 10 days period and assume they are positive and the household stays home for 14 days.*
